

AMENDMENTS TO THE SPECIFICATION

Page 9, first full paragraph:

Here, the row driving section may sequentially drive the plurality of scan lines one by a ~~first one in a~~ first one of the modes based on the scan control signal. Also, when the image display section is divided into an upper section and a lower section, the row driving section may sequentially drive the plurality of scan lines one by one in each of the upper and lower sections in a second one of the modes based on the scan control signal. Also, the image display section is divided into an upper section and a lower section, the row driving section may sequentially drive the plurality of scan lines N by N (N is an integer more than 1) in each of the upper and lower sections in a third one of the modes based on the scan control signal. In addition, the row driving section may sequentially drive the plurality of scan lines N by N (N is an integer more than 1) in each of the upper and lower sections in a fourth one of the modes based on the scan control signal.
